BRIEF OVERVIEW / CAREER OBJECTIVE / SUMMARY

Pursuing my UG degree in Computer Science, but I also see far to work over the projects to enhance my Experience in real world. Have the capability to adapt to changes either in this changing environment or rapidly updated technologies. Have a competency attitude to get through my problems and over come the challenges hindering my way.

KEY EXPERTISE / SKILLS

Java C# HTML5 CSS3 Javascript SQL Server Data Structures Servlets JSP RPA Eclipse Brackets
Visual Studio STS Agile ADO.Net

EDUCATION

Dr. M.G.R. Educational And Research Institute B.Tech. - Computer Science & Engineering CGPA: 8.91 / 10.00	2019 - 2023
Modern Academy Inter College, Lucknow 12 th CISCE Percentage: 76.00 / 100.00	2018
Modern Academy Inter College, Lucknow 10 th CISCE Percentage: 88.00 / 100.00	2016

INTERSHIPS

Cognizant Technology Solutions India Private Limited Programmer Analyst Intern Key Skills: HTML CSS Javascript ADO.Net Agile	23 Feb, 2023 - Present
---	------------------------

PROJECTS

Eazing B2C communication via Social Media Automation Team Size: 2 Key Skills: RPA API WhatsApp UiPath studio • Technology used: ☑ VB Script ☑ Robotic Process Automation[RPA] ☑ UiPath Studio ☑ MS-Excel ☑ Macros • This software bot is capable of sending automatically customized messages for each user by reading the names or the numbers of the users from the CSV file, via What'sApp.	02 Mar, 2022 - 10 May, 2022
Student Database Management System Team Size: 1 Key Skills: Java Apache MySQL Eclipse JSwing PhpMyAdmin • Technologies used: ☑ Java ☑ MySQL ☑ JSwing ☑ Xampp Apache ☑ Eclipse IDE • System capable of Adding, Updating, deleting, and retaining the records of the students on a database. Fee details, updates can also be recorded and managed via this tool.	08 Jul, 2021 - 24 Jul, 2021

Key Skills: Research Editing Blockchain

After the invention of the internet of things (IoT), information sharing started happening through the connected cloud-based ecosystem. Blockchain had an important role to play in the expansion of the internet of entities (IoE) market as non-centralized networks were being deployed and used. IoE has emerged as one of the popular add-ons to IoT technology which helps in easy data collection, organizing, and managing of data in non-centralized databases. Gradually, many business organizations and technological institutions have started to adopt the Blockchain from data security and data privacy concerns. However, the adoption of Blockchain with IoE includes the challenges of scalability, energy consumption, interoperability, etc. Apart from these issues, other major hitches in the path of mass adoption of Blockchain technology are lack of regulations, lack of standardization, and shortage of talents. In this chapter, all the major issues and challenges of Blockchain in IoE are analyzed in detail.
